Why learn Spanish with us?

- **Students acquire the language the natural way!**

We don't make students memorize verb conjugations like you did when you were in school. Our natural method easily engages students so that the lessons last a lifetime.

- **We teach the culture, too.**

Our classes, taught by native Spanish speakers, give kids a well-rounded education grounded in hispanic culture.

What a parent says:

"We have two children involved in an after-school program at their elementary school. We are amazed at what they have learned and retained during the first and second sessions.

In 15 weeks they know more than I did in two years of high school Spanish classes. The fact that they incorporate Latin American and Spanish customs into the lessons is just icing on the cake. My kids will take these classes for years to come!!!"

"The folks at World of Spanish understand deeply that the secret to getting kids to absorb a second language is to disguise learning time as playtime. Their approach isn't about rote memorization; instead they bring children to a space where culture and language intersect."
