Informational Items for the Superintendent

First Reading of the district calendar for the 2020-2021 school year

Local Report Card - Mrs. Nancy House
Mrs. House discussed the recent release of the State Report Card. She stated that the district’s graduation rate continues to be high, which earned the highest grade on the card. Mrs. House remarked that the district’s lowest grade, the grade of D for “Progress,” does not accurately reflect the actual progress made by our students. For example, seventh graders take seventh grade accelerated math and pass the state’s seventh grade math test, and they progress from seventh grade math to the first year of high school math. But the report card doesn’t measure that growth accurately, instead reflecting those seventh graders’ progress in a negative number.
